

THE OPPORTUNITY

This up and coming brand in southern Ontario wanted the competitive edge when it came to an Audio Video solution. Infinite was challenged to build a solution that not only worked great but also create a design that looked better. Infinite designed perfect TV and Video Wall placements for this project, both in the Bar and in the Dining area.

The Piper Arms delivers traditional restaurant comfort food, neighbourhood pub favourites as well as traditional British fare. The Piper Arms Pub is quickly becoming a favourite hotspot for locals. Piper Arms offers 21 beers on tap, both domestic and imported beer favourites to satisfy your thirst.

Piper Arms

Whitby

The client requested we put in a sound system that would be loud, clean and sharp. Sound was clearly an important requirement for this client. We worked to design a phenomenal and unique system that would exceed the client's expectations.

The timeline also put us up against the clock with only 5 days to complete the project. This was a challenge for our team, from procurement to programming. The Infinite team worked in shifts, day and night, and was able to complete the project on time.

Infinite implemented Audio, Video, Network, Automation, and Security.

IMPLEMENTATION

- **Audio**
 - EV Pendant Speakers and Subwoofer
 - EV Outdoor Speakers
 - Powered by Crown & QSC Amplifiers
